ABOUT US

The Cambridge School was founded in July 1989 as a preparatory school for boys & girls in the name of "Sarthak Sansthan" in Indra Nagar Colony, Vasant Vihar - Dehradun. In April '95 "Sarthak Sansthan" acquired the name of "The Cambridge School" under its ambit for the cause of universal & quality education with the motto "Knowledge is Power".

With rapid growth and upgrading of the school to class XII level the board of directors and the management of the school acquired & developed the present campuses at 461, Khubura, Kanwali Rd (City Campus) and Paundha Road, Prem Nagar (Salwood Campus). Now since the school has maintained its decorum and fulfilled all the norms & conditions laid by Central Board of Secondary Education (CBSE), New Delhi; the School has also obtained no objection certificate from Uttarakhand Government, So it has been now registered & affiliated with CBSE, New Delhi in the name of The Cambridge Senior Secondary School - with Science, Commerce, & Arts stream.

In the pollution free zone of high hill surrounded by beautiful natural scene of Shivalik range of Himalayas & Neemi River; a spacious campus of 2 acres at Paundha Road Premnagar - Dehradun (13 km from the present premises) has been developed exclusively to create an appropriate environment for studies & all other curricular activities.

OUR VISION & MISSION

The school has been established with great aspirations and with a keen mind to make it one of the best institutions.

The school aims to guide children through the joys of learning using play way method & planned outdoor activities. It also aims at creating a truly enlightened community providing a sense of stability & security for boys & girls & their pursuit of excellence.

We also aim at strong self confidence & character building through extensive exposure to a wide range of extra-curricular activities.

FROM THE PRINCIPAL'S DESK

Ms. Renu Sablok
Principal

We all want to live in the society, where there is love, peace, joy, harmony, development, freedom from violence and corruption. The dream of good society should have a foundation. One of such foundations is "Education". A school is not merely a building surrounded by four walls. It is a place that shapes the personality of a child. If we want our society to be good then the primary requirement is quality schools. Educational institutions recognize and utilize hidden talents of students. It opens the door for all, whether one is poor or rich, from low or high caste, whatever creed one believes in, without any grain of discrimination. Therefore, it is termed as the temple of learning. Education helps to be honest and good leaders of the society and nation.

All of us are end owed with different talents and abilities. Some are natural and some are inculcated through hard work and consistency. Our passion is to develop their skills and work for their all round development. Through different activities and through spiritual learning it will become possible. So with collaboration with Education India we are organizing different academic changes and extra co curricular activities it is going to be possible.

May God continue to bless our school!

World Tourism Day

Date : 27-09-2021

World Tourism Day is celebrated annually across the globe on September 27 since 1980. The purpose of this day is to raise awareness about the importance of tourism in influencing the social, cultural, political and economic values of the international community. With the ongoing COVID-19 pandemic, the tourism sector has taken a backseat. But the onset of technology has made it possible to make an international trip while sitting safely at home.

To celebrate World Tourism Day 2021, this year the students of The Cambridge Sr. Sec. School, Dehradun got the opportunity to present their creativity in front of all the schools under the umbrella of Education India. As we all know, Education India focuses on fostering every child's creativity and for this each school gets an opportunity every month to present their creative drawings and paintings for specific events and days.

With this aim, our school was given the topic of - World Tourism Day, and the best drawing was presented in the greetings by Education India. All the students participated with enthusiasm and we received more than 50 entries for the day. Big congratulations to - Ridhi Saxena from Grade-X, whose art represented our school in the greetings.

PARENT'S TALK

My daughters have been studying in The Cambridge senior secondary school for 15 years now. The teachers provide great encouragement and the academic program is great. Teachers are passionate about seeing their students succeed. They are so good at sharing moments of pride they see within your child, like their good behaviour and their achievements; and they know the importance of getting the parents involved in case of any issue and do it in a very respectful, approachable manner. I'm very grateful to The Cambridge Sr. Sec. School and Education India for having such wonderful activities. With your guidance our daughter/son has developed into a confident and capable child.

Thank You for being such an important part in our child's development.

PARENT'S TALK

The Cambridge Senior Secondary School is such a great school. It provides good co-curricular activities and great opportunities.

Both my children have learnt many good skills from the school and of course from their teachers. Pratham, my son is very glad to have his class teacher. She is very polite towards students.

Even the online classes provided by the school are good and helpful. They have learnt a lot from online classes.

Thank you for your constant support.

TEACHER'S TALK

I Gopal Ram Dabral, working as PGT-PHYSICS in The Cambridge Senior Secondary School, Dehradun for the academic session of 2021-2022. Since our school has collaboration with Education India, so our school is working under their guidance. As we can see, the pandemic situation is getting better in India. So, schools are opening after this long pandemic phase. Due to this pandemic in all schools the management has collapsed badly, which makes it very difficult for any school to get back on track. But our school is very fortunate that we have collaborated with Education India, which is going to help our school to run in effective and positive manner. They have good plans to make our school more efficient and effective. They are conducting some fabulous activities in school to make it more attractive. The whole team of Education India and our school management is working so hard for the betterment of our students. They are taking care of the discipline, which should be followed in the school. They are also working on the administrative level to make it more functioned and better. The activities which are being conducted by them in school are so enthusiastic that not only students like it but parents are liking it too. School management and Education India are also in contact with the students and their parents who are unable to attend the school in this pandemic.

I feel very grateful to work under such a great school management and Education India team.

'Team Education India' is surely reaching out to each and every child's heart and will surely work for the holistic development of children as well as the teachers.

TEACHER'S TALK

I Sushil Chandra Joshi am working as an assistant teacher in the Cambridge Senior Secondary School, City campus, khurbura for academic year 2021-22. Our school is working under guidance of 'Education India'. They have started with the school in the new academic year, in the situation of covid-19. They have started well in management as well as have conducted so many activities. In this way we planned with online classes for all the grades up to 10th standard. They have planned everything well and it's going step by step. Their way of working is very well and disciplined manner. So we are also sending PDF of all the subjects. Students and parents are participating in all kinds of activities being conducted in the school also. Our school principal and administrator visit our classes regularly and check the progress of each and every child. Students are very eagerly waiting to rejoin the school full fledged as early as possible.

I think team Education India is reaching each and every child's heart and they surely are helping in the development of children and all the School staff.

This is good sign for our school and all staff members.
