We lay the foundation of the child's overall development. Alongwith the academics, we put equal emphasis on sports, life skills, health, hygiene and values. Going by global needs and trends of quality, we impart technology embedded education.

John Kennedy says " Let us think of education as the means of developing our greatest abilities because in each of us, there is a private home and dream which fulfill, can be translated into benefit for everyone and greater strength for our nation.

PARENT'S TALK

I'm glad in making my opinion about The Cambridge Senior Secondary School. My child studies here in class- VI.I have noticed a great level of confidence in my son's each and everyday, in personality improvement, discipline as well as in academics skills.

I wonder how a school can change the shape of child in short time, not only to my child, but as a parent, it brought a lot of respect from my neighbours and relatives with whom child speaks.

I m thankful to the principal and staff of The Cambridge Senior Secondary School for bringing my child to a good shape.

TEACHER'S TALK

It gives me immense pleasure to be a part of The Cambridge Senior Secondary School. Since my joining in the school, I found the environment very cooperative. The Principal and the whole staff has been very professional and cordial. The environment is as such that it brings out the potential of the employees and students to the maximum.
