FROM THE PRINCIPAL'S DESK

Dr. Meenu Sharma
Principal

Being a principal, I have a strong belief to promote harmony, dedication and a good scenario for everyone in the school. Harmony can be interpreted as team cohesion as long as we have a dedicated team aiming for the same goals, anything can be achieved.

I wish our students would definitely become future leaders, rolemodels of the society and will scale great height. "Success comes to those who work hard and stays with those who don't rest on the laurels of the past".

PARENT'S TALK

My son like all children was born with a love of learning as he started progressing in the school, he became bored and restless. His love of learning quickly deteriorated and began to manifest as behavioural issues. That included acting out a path towards learning. The answer was simple. Find a school that challenged enough to feed his learning, acknowledge his individuality and guide him to do the right thing. I found this in The Cambridge Senior Secondary School, it brings out the best in every child by tapping into their individual strength while creating an environment of kindness, responsibility and a leadership.

"Our family is so grateful for Cambridge Senior Secondary School.

TEACHER'S TALK

I, Shweta Sehgal working as a PRT teacher in The Cambridge Senior Secondary School. Teaching is my life's passion. I enjoy an active and co-operative class. I want to give some valuable lesson to every student should know. Life has changed after Covid-19. Classes were conducted online. I missed the warmth of friendship, the ambience of learning and the fun of doing things together. As a teacher, I think there are three things every student should know –

First of all, make best use of time and opportunities that one present for you,

Whatever you do, do with full enthusiasm,

Never lose your hope, if you do not achieve it, But look ahead to every situation.
